Market Review March 2014

Existing home prices continue to come down and their sales pace is picking up while New Construction prices for numerous reasons have to go up and their sales continue to slow down.

Our market has too much Existing Inventory at 10.46 months and must continue to sell off that inventory to get back to a balanced 6 mos inventory

New Construction closings are running 23% behind YTD 2013 while Residential resales are up 19% compared to YTD 2013

79% of all New Construction sales happen below \$250,000.

In Existing Sales, If you are marketing houses over \$180,000 you are missing over 83% of the market.

To get a better feel for the existing price ranges look at the Existing Home Absorption Report and the Existing Trend page of this report (note* - discrepancies between the Trend report and numbers elsewhere in the report are because the trend report is generated early in the month before all data is reported but the trends are consistent)
